## MSc ECONOMICS AND ANALYTICS

**2** YEAR  
FULL TIME  
COURSE

**4** SEMESTERS

**4** MONTHS  
(INDUSTRY  
INTERNSHIP/  
PROJECT)

This programme excels in its theoretical orientation and analytical skill formation through an innovative combination of quantitative and qualitative structures to guide the learners through computational modelling and link it with economics theory by cutting-edge tools, provided thorough training in descriptive, predictive and prescriptive analytics.

### ABOUT THE PROGRAMME

The vital attributes of the current programme is to give an exposure of qualitative economic theory with computational science and various quantitative techniques. These combinations of rigorous theoretical and computational knowledge will enhance decision making in the various fields of economics, finance and the policy making.

### KEY EXPERTISE OFFERED

**Computational  
model for  
Microeconomics**

**Empirical  
model for  
Macroeconomics**

Hi, This is Christat.

**Note:**  
*Applications are open for Ph.D  
programmes 2023 and MBA 2024.*

**Industry and  
Corporate  
Exploration**

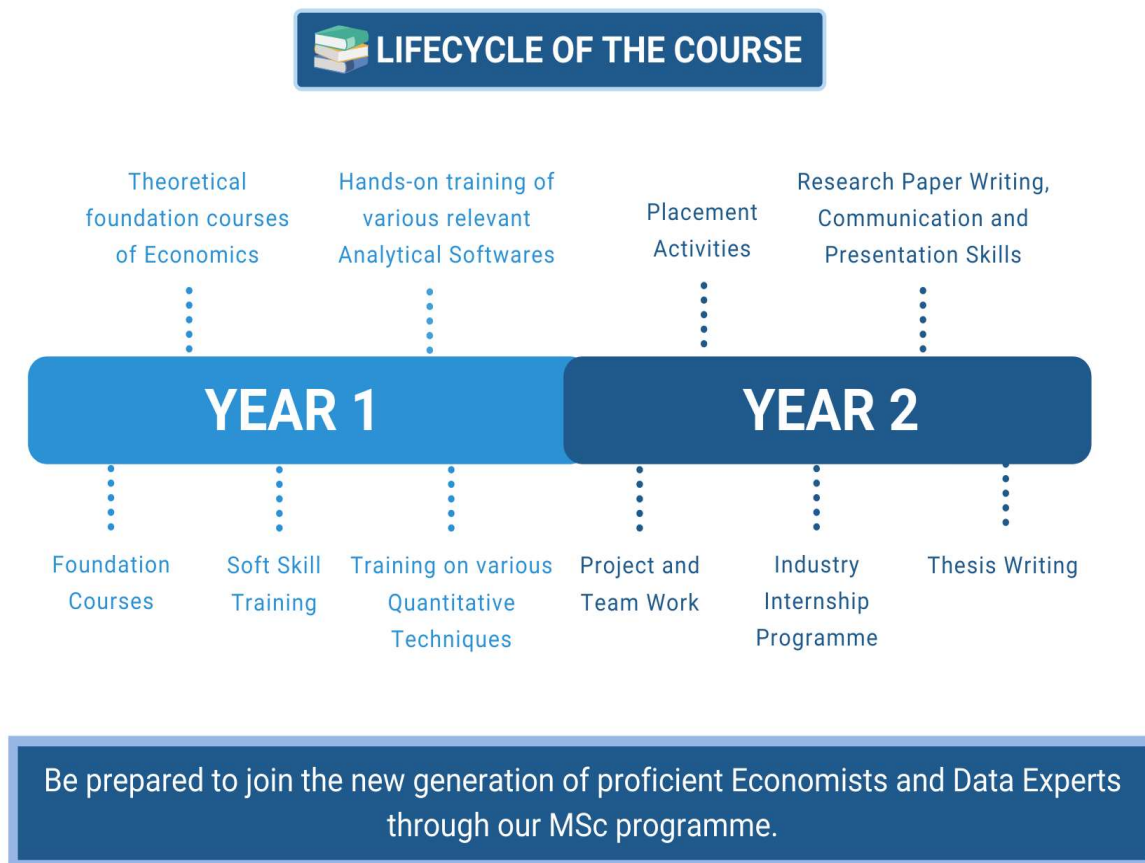

**Computational  
Model for  
Financial  
Research and  
Forecasting**

**Big Data and  
Machine  
Learning**

**Predictive  
Analysis**

The Department stands out for the high profiles of its faculty in terms of the pedagogic innovativeness and research accomplishment. The current team of well-experienced faculty in the department contribute to research in broad and diverse areas. Publications of faculty focus on issues of current significance. The high standard of the publications earns them places in the popular Scopus indexed and Web of Science journals across the globe. The department offers MSc Economics and Analytics programme which excels in its theoretical orientation and analytical skill formation. Innovative teaching strategies bring exceptional learning experience for the students. Challenging academic engagements contribute to the holistic development of the young minds. Advanced training in quantitative tools and statistical applications make the postgraduates competent to qualify for the doctoral programmes of the best institutions of the world and attain career positions with prominent corporations. Along with more courses such as Microeconomics, Macroeconomics, Developmental Economics, International Economics, Behavioural Economics, Financial Economics, Environmental Economics, Econometrics and Mathematical Economics, a wide range of specialized courses including Labour Economics, Public Economics, Health Economics, and Operations Research are well integrated into the curriculum. The emphasis on experiential learning has made Dissertation, Internship, and training on data analysis an integral part of the curriculum. Through its well-known academic programmes, the Department, with its enviable legacy of illustrious teachers and alumni, has carved a niche for itself as a center of learning where Economics is taught with a difference. It is a matter of great satisfaction that students and faculty act in unanimity to make the teaching-learning process a highly decisive job. Currently, the Department, under the leadership of Dr. Surekha C, the HoD, and Dr. Reeta Tomar, the coordinator, along with ten accomplished faculty members offers a wide array of academic programmes at Undergraduate, Postgraduate, and Doctoral levels.
