

Top Engineering College in North India with Best Placements

Rama University's Faculty of Engineering and Technology is a premier institution in North India that provides highly sought-after multi-disciplinary programs designed to produce skilled engineers in various fields. The programs are research-driven and incorporate technology to offer a well-rounded education that combines both traditional and modern engineering studies. Students have access to a diverse range of core courses, elective subjects, and hands-on project work tailored to their area of specialization to ensure they acquire the necessary skills and knowledge to excel in their future careers.

Faculty of Engineering and Technology

The Faculty of Engineering and Technology at Rama University provides a comprehensive, research-driven curriculum that integrates technology and multi-disciplinary studies to prepare engineers with a broad range of skills and expertise. By combining traditional engineering principles with modern approaches, the Faculty produces graduates who are highly competent in various fields of engineering. Students can expect to engage in a range of core courses, electives, and specialized project work that are tailored to their respective areas of focus, ensuring they receive a well-rounded education that prepares them for success in their careers.

Courses Offered

Graduate Programmes

- B.Tech. Biotechnology
- B.Tech. Computer Science & Engineering
- B.Tech. Computer Science & Engineering (Artificial Intelligence)
- B.Tech. Computer Science & Engineering (Data Science)
- B.Tech. Computer Science & Engineering (Internet of Things)
- B.Tech. Food Science & Technology
- B.Tech. Mechanical Engineering
- B.Tech. (Lateral Entry) Biotechnology

- B.Tech. (Lateral Entry) Computer Science & Engineering
- B.Tech. (Lateral Entry) Mechanical Engineering
- B.Sc. (Hons.) Biotechnology
- BCA Bachelor of Computer Applications

Post Programmes

- M.Sc. Biotechnology
- M.Tech. Biotechnology (Full / Part Time)
- M.Tech. Computer Science & Engineering (Full / Part Time)
- M.Tech. Construction Technology & Management (Full / Part Time)
- M.Tech. Electronics & Communication Engineering (Full / Part Time)
- M.Tech. Mechanical Engineering (Full / Part Time)
- M.Tech. Structural Engineering (Full / Part Time)
- M.Tech. Transportation Engineering (Full / Part Time)
- MCA

Why Study Engineering & Technology at Rama University?

Studying Engineering and Technology at Rama University is a smart choice for many reasons. The university provides state-of-the-art facilities such as fully-equipped IT labs and IT-enabled classrooms to ensure students have access to the latest technology and software. Faculty of Engineering and Technology also boasts MOOC study centers that offer students the opportunity to learn from leading experts in various fields. In addition, the university has advanced laboratories like the Manufacturing Technology Lab, Strength of Materials Lab, Dynamics Lab, Thermal Lab, Metrology & Measurement Lab, and Computer Lab that provide students with hands-on experience in their respective fields of study.

Career Path

Campus Life @ Rama university

- 10000+ Indian and 450+ International Students
- Auditorium, Lecture Halls & Playgrounds
- Digital Classrooms & State-of-the-art Library
- Fully Wi-Fi enabled Campus
- Well Equipped Labs with High-tech Equipments
- Medical & Transportation facilities
- Separate Girls and Boys Hostels
- 100% Organic & Wholesome Meals
- Sports & Gym facility
- On Campus Radio Station (Radio Rama 90.8 FM)
- Trendy Shopping Arcade & Vibrant Food Court

Industry Enrichment Programs

- 6 In-house Journal Publication
- Conferences & Seminars
- Entrepreneurship Development
- Incubation Cell
- Industrial Visits
- Industry Interface Cell
- International Collaborations
- Soft Skills Training and Career Counseling
- Research and Development Cell
- Social Outreach Programs
- Training Workshops

Placements & Corporate Relations

- 100% Placement Assistance
- 500+ Job offers in last Academic Session
- Dedicated Centre for Corporate Relations
- Exclusive Session from Industry Experts
- Tie-ups with Google, Microsoft, Oracle, AWS & SAP
- Industry-oriented Curriculum & Training Programs
- Internship Opportunities in Reputed Companies

- Placement Cell with Experienced Officers
- Regular on-campus Placement Drives
- Strong Alumni Network
- Tie-ups with more than 285+ Companies
