

The Department believes in laying a strong foundation in Biotechnology, at par with international standards of the Medical industry in the fields of Bio-imaging, Cell biology, and Diagnostics. Equal emphasis is laid on training and research.

We prepare our students to face and meet the challenges of Biotechnology by laying their foundation through world class teaching by our faculty members who come from Harvard medical school, Yale University, University of Maryland, Sussex, NIH, Baylor College of Medicine, Max Planck, CIMAP and AIIMS.
