Master of Technology-Computer Science Engineering

Level	Duration
Graduate	2 Years

Overview

M. Tech (Master of Technology) in Computer Science and Engineering (CSE) is a postgraduate degree program that provides advanced knowledge and skills in various areas of computer science, such as software engineering, artificial intelligence, machine learning, computer networks, database systems, and computer graphics.

The program usually has a duration of two years and is designed for students who have completed their undergraduate degree in computer science or a related field. Some universities may require students to have work experience in the relevant field.
