RECENT NEWS/NOTICE

COMPUTER SCIENCE

The Department of Computer Science & IT was established in 1999. Ruia College was among the first 8 colleges in Mumbai to start Computer Science Programme under the University of Mumbai. Subsequently, we introduced M.Sc. Computer Science and M.Sc. Information Technology in the year 2002 and 2011 respectively. Our Department facilitates academic excellence, innovations in problem-solving, research attitude and holistic development. Our Undergraduate programme in Computer Science focuses on training in a wide spectrum from core areas to emerging technologies by academic and industry experts. Our Post-graduate programmes emphasize on Research and Specialization in current trends of Computing and work experience in the industry through six months Internship in last semester. Department has progressed over the years in academics, placements and internships with dedicated efforts of well-qualified and experienced faculties. Our Department is proud to receive grants under the Star College Scheme from DBT, Ministry of Science and Technology, Government of India in 2016. These grants assisted to promote Undergraduate Research and training in current Trends and Technologies. Our students have excelled as entrepreneurs, innovators and researchers in various IT domains of global competence. Many of our students are placed in leading companies like Google, L & T, InfoTech, TCS, Wipro, Capgemini, Infosys, MBT, ATOS, Deloitte. Many Research papers are presented and published by students. Under Autonomy, we have included the most recent domains in our syllabus to bridge the gap between industry and academia. We have state of the art infrastructure with dedicated laboratories for UG and PG. All laboratories have high configuration systems and good quality internet connection.

COMPUTER SCIENCE MISSION

- To develop global competence in Computer science and IT by enhancing deep technical knowledge in emerging technologies, critical thinking, Problem-solving, Leadership skills.
- To strengthen academia-industry collaborations for training, placements and internships.
- To motivate students to be successful entrepreneurs, ethical, life-long learners and innovators who will contribute positively to various domains for the well-being of our nation and tackle the 21st Century challenges.

BEST PRACTICES

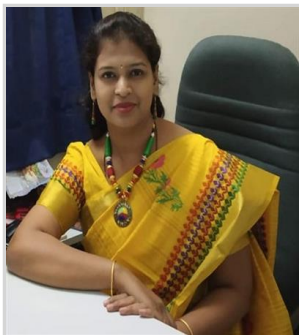

- **Placement Assistance:** Pre-placement training by industry experts, counselling by mentors leads to maximum on-campus and off-campus placements.
- **Internships:** Undergraduate students are encouraged for summer internships, Postgraduate students have Six-month internship in their course where faculty mentors guide them throughout the process.
- **Industry involvement:** Experts from industry are invited as trainers, contributing suggestions to the curriculum.

ACTIVITY COMPUTER SCIENCE

Our main focus of conducting various activities is the overall development of students, faculties and achieve our mission. We have conducted guest lectures by eminent personalities from International universities and organizations to motivate students. We organized extensive training and workshops in domains apart from curriculum under star college scheme in Robotics, open-source technologies, Android, Artificial Intelligence, Machine Learning and many more. Placements and internships being our main focus we trained students in soft skills to increase their employability.

MESSAGE FROM HEAD OF DEPARTMENT

Department of HOD

I Megha Sawant, Head, Department of Computer Science & IT, Welcome you to the Department of Computer Science & IT. I am proud to be associated with Ruia college for over two decades as student, faculty and now head of the department. I firmly believe in education that triggers not only the intellectual ability but also motivates mind and soul positively to create, share and apply knowledge. I am fortunate to implement my ideas with the support of institution, colleagues and students.

We are always in the process of tuning the young minds to make them globally competitive. We, educators, believe in the principle "Learn by doing" with more emphasis on the practical implementation of concepts and Project-based learning with applications to real-world problem-solving. We focus on catering to the needs of Millennial learners with enhanced ICT tools for collaborative learning, blended learning and flipped classrooms. We strive to maximize the potential of each student by maintaining a positive and trusting relationship. We organize various activities like Intercollegiate IT Festival TechStorm, Seminars, Workshops/Training on recent Trends and Technologies, Alumni Talk. All these activities are managed by students that enhance their leadership qualities, interpersonal and communication skills. We strive to inculcate ethics and morals in students through various social activities. Enthusiastic and passionate faculty team has impacted on an excellent performance of students in placements, academics and certifications. Our students are bringing glory to our department by performing well globally in their endeavours.

To conclude this message, I would like to welcome bright young minds to be part of our team and we together would accomplish our ambitions.

OUR TEAM
