

LEADING WITH PASSION SERVING WITH COMMITMENT

B.Sc. – Forensic Science

[APU](#) > [Law & Forensic Science](#) > [B.Sc. – Forensic Science](#)

B.Sc. in Forensic Science program offered by the School of Law at Apex Professional University involves the application of scientific knowledge to the

investigation of crimes. Professionals in this discipline apply their knowledge of science to analyze the evidence found at a crime scene.

B.Sc in Forensic Science at Apex Professional University 3-year graduate program deals with the application of scientific knowledge in crime investigation and the study of the human anatomy. In this program, students learn all aspects of forensic science such as how clues can be collected from a crime scene, physical evidence such as hair, blood, and fingerprints that are taken to the laboratories to present them as evidence in court.

The course will enable students to develop scientific principles of conducting investigation, technical skills, scientific aptitude, and an inquisitive mind with keen observational skills, and prepare them to handle work pressure that can come from the judiciary, police, and administration besides, highlighting the importance of ethics as a working professional. With the increasing crime rates in India, the demand for forensic scientists has only been growing.
