A Detailed information regarding IIFT Ph.D Programme: | [Information](#) | [Rules and Regulations](#) |

One of the primary purposes of the Ph.D. programme is to encourage scholars to undertake research and in-depth analysis and enrich knowledge in their chosen field. It includes the ability to independently apply methodologies of scientific research as well as to create new scientific knowledge. Further, the scholars are expected to demonstrate an ability to critically analyze research findings and to understand their importance in the wider contexts and effectively communicate and disseminate research results.
