## Bachelor of Library Science (BLibSc)

## Introduction of Bachelor of Library Science (BLibSc)?

The Bachelor of Library and Information Science (B.Lib.I.Sc.) is a one-year undergraduate programme that teaches library administration and management students. B.Lib.Sc is divided into two semesters in most cases. The bachelor's degree in library and information science (B.Lib.I.Sc.) focuses on the preservation and upkeep of libraries.

In the B.Lib.I.Sc curriculum the students are taught about/: Library and Society, Library Classification, Library Cataloging (Theory and Practice), Information Sources and Services, and more.

Book enthusiasts who wish to learn more about valuable resources and books will like the B.Lib.Sc. Programme. Students who take this course will learn more about book management and consumer demands when recommending different books on various topics. People will need books as the demand for information about multiple subjects grows because the internet cannot always provide customers with detailed information on every topic, B.Lib.Sc. Graduates can assist customers in referring to books in much less time because they will have a clearer understanding of book administration and management.

### Eligibility Criteria for Bachelor of Library Science (BLibSc)

Each college or university has its own set of eligibility requirements that interested applicants must meet. The following are the key qualifying requirements for the Bachelor of Library and Information Science [B.Lib.I.Sc] programme:

The applying student must have graduated from a recognised university with a bachelor's degree in any field.

Anyone who wants to pursue the course must have a minimum of 50-55 per cent in their graduation. They must also meet the entrance criteria for the college to which they wish to apply.

Some colleges and universities have entrance exams that applicants must pass.
