SPJIMR's Post Graduate Programme in Management (PGPM) is an 18-month AICTE-approved programme, ideal for working executives. The programme commences with an online module for 2 months, an on-campus residential module for 12 months, followed by 4 months of Industry and International Immersion. The programme is designed as a career accelerator for candidates with a minimum of 3 years of work experience and strong domain knowledge to move to expansive roles in general management. PGPM participants are provided with a solid foundation in management fundamentals in the first phase, followed by a deep dive into their chosen area of specialisation in the second phase. PGPM focuses on strong academic rigour and offers a wide range of electives. The diverse and extensive work experience of the participants results in enhanced classroom learning.

SPJIMR is ranked #6 amongst management institutes in India by the Business World 2022 B-School Rankings for its PGPM programme. PGPM is accredited by AACSB and AMBA, which exemplifies the gold standard in management education. PGPM participants receive an AICTE-approved Post Graduate Diploma in Management (Business Administration) post-completion of the programme.

## Objective

Competency  
Goals

< <https://www.spjimr.org/wp-content/uploads/images/pgpm-competency-goals.jpg> >

PGPM aims to leverage its participants' professional experience and domain expertise with the needed skills to evolve as the business leaders of tomorrow. The programme objective is to develop functional specialists into value-

based leaders with strong functional and general management capabilities. The programme objective is aligned with the following competency goals:

Students will be:

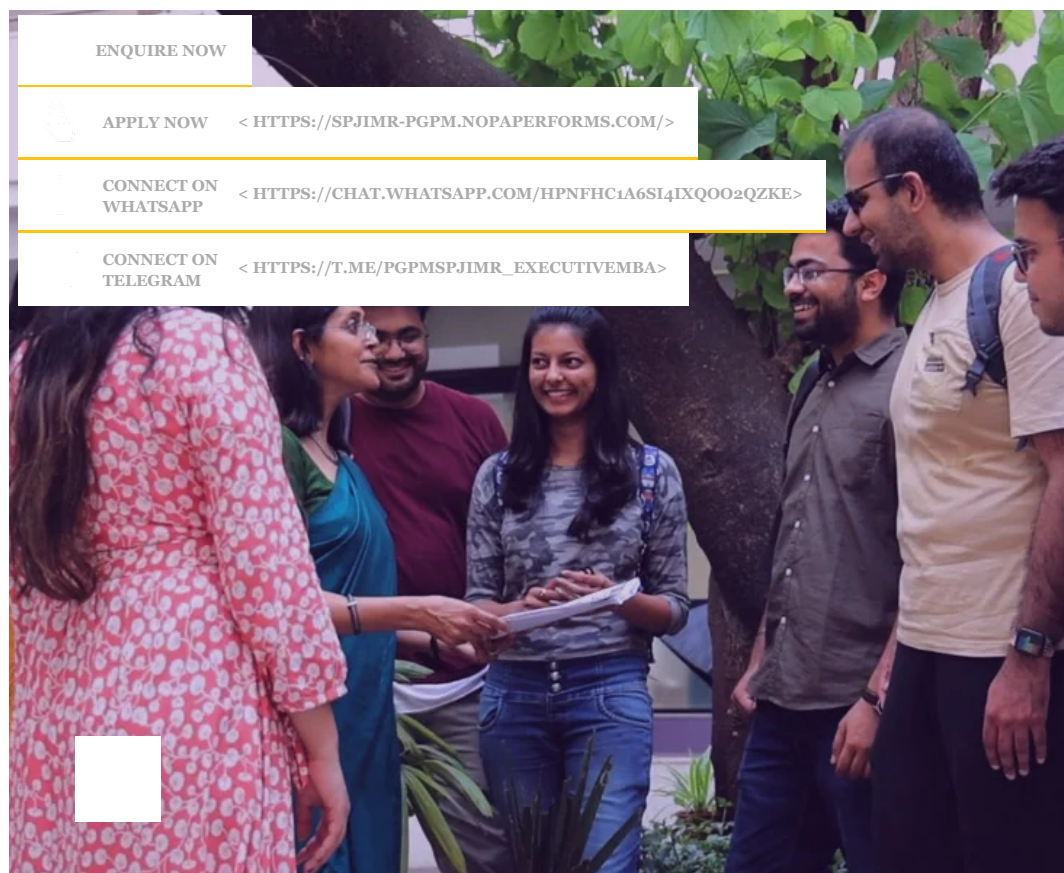

Responsible and stakeholder-sensitive leaders

Future-ready leaders

Innovative and change agents

Able to make reasoned decisions

Clear in thought and articulation
