Program Details

FLAME University offers a two-year full time MBA. **Finance, Marketing, Human Resource Management, Entrepreneurship and Operations are offered as specializations.** Learning during the program happens both in classrooms and beyond it. Our pedagogy is distinct and different from other MBA programs in India. We believe in case study method and research based projects; not just rote learning. Our students are kept on their toes with presentations and learning happens through group discussions, simulations and other pedagogical innovations. Our program is a living network of ideas – one that challenges students to think rigorously and encourages them to put their thinking into action.

FLAME University's MBA program comprises of Core Courses, Liberal Education Courses, Capstone Courses, Specialization Courses, Open Elective Courses and Experiential Learning Courses.

Core Courses

Core Courses are a set of mandatory prescribed courses of the MBA program shared by all MBA students irrespective of their major or minor.
