

Syllabus Structure of B.Sc. LL.B. (Hons.)

Course Structure of B.Sc. LL.B. on Criminal Justice and Forensic Science Or Criminology and Forensic Science

Introduction

B.Sc. LLB Forensic Science is an integrated course that combines the core subjects of law and Forensic Science. This course provides a perfect combination for students seeking careers in the field of law enforcement. The integrated knowledge of the students will be helpful to the criminal justice system as they can handle the legal issues with scientific aptitude. B.Sc. LLB. Forensic Science graduates will become the torchbearers of empirical legal practices in India.

Additionally, it has significant edge over the similar undergraduate level courses i.e., B.Sc. Forensic Science and B.Sc. LLB, as both of these courses do not include all the core subjects of Law and Forensic Science, respectively. B.Sc. Forensic Science provides the parallel opportunity to the students to learn the core subjects of Forensic Science as well as Law.

Programme Outcome

This course will help the students understand what forensic science is, and how it can be applied to investigate crimes and the dynamics of legal processes. They will be able to understand and explain crime scenes, different categories of evidence and how they are collected based on their evidentiary values. They will also be able to describe different types of evidences that are tested on site and in the laboratory, explain the roles of specialists and services in forensics, understand the theories underlying criminal behaviour, psychological disorders and how they relate to criminal behaviour; how data is assessed to profile criminals, understand how evidence is presented in court, and the scientific admissibility of different evidences in court of law.

Objectives:

- To emphasise the importance of scientific methods in criminal justice system.

- To disseminate information on the advancements in the field of law and forensic science.
- To highlight the importance of forensic science for the perseverance of the society and legal system.
- To generate talented and knowledgeable human resource commensurating with latest requirements of forensic science.
- To provide a platform for students, forensic scientist and law personals to exchange views, chalk out collaborative programs and work in a holistic manner for the advancement of criminal justice system.
- To make the students understand scientific standards and the admissibility of evidences.

Course Outline:

First Year

I Semester

S. No.	Title	L	T	P	C
1	Legal Methods	4	0	0	4
2	Law of Torts	4	0	0	4
3	Legal History of India	4	0	0	4
4	English – I	4	0	0	4
5	Introduction to Forensic Science	4	0	0	4
6	Introduction to Crime and Criminology	4	0	0	4
Total Credit					24

L: Lecture,

T: Tutorial,

P: Practical,

C: Credit

II Semester
