Doctoral Programme

IIM Kashipur's Doctor of Philosophy (PhD) is a full time residential doctoral programme designed to address the academic and research needs of professionals. The main objectives of the programme is to provide scholars with necessary skills to identify and research complex issues in the field of management. Doctoral programme seeks candidates with outstanding academic backgrounds, intellectual curiosity and discipline needed to make scholarly contribution. The programme is committed to train individuals to excel in their area of research through publication of quality work of international standard.

The objectives of the doctoral programme are:

- To encourage scholars to carry out research in the field of management, leading to publication in internationally reputed

research journals and finding solutions of real world management problems.

- To equip scholars with necessary understanding and skills to identify and research on complex issues in the field of management.
- To develop expertise among prospective scholars for careers in management research and teaching and thereby to address the shortage of high quality management faculty in the country.

Applications Are Invited In The Areas Of:

- Economics
- Finance and Accounting
- Information Technology and Systems
- Marketing
- Operations Management and Decision Sciences
- Organizational Behaviour and Human Resource Management Strategy
